

6 in one DIESEL powered Power Module AIR-WELDER-GENERATOR-JUMPSTARTER-Batt.Charger-CCand CV

This Power Module delivers 300 amps of welding power and 40 cfm of on-demand air. It also provides 400 Amp DC for Jumpstarting at 12-24-36 Volt. It also can be used for Battery Charging and will power Wire Feeders (Mig) via its CC and CV Output. The **Cobra** is compact and will fit in a truck's side-pack or can be mounted behind the cab. This self-contained unit makes more efficient use of truck space. Featuring a remote panel, it provides convenience and safety. Designed for maximum fuel efficiency, all functions of this Power Module can be performed at the same time with some limitations.

Specifications

Engine:	Diesel: 25 HP Kubota, Liquid Cooled
Compressor	Rotary screw , on Demands Air
Generator	6,000 continuous watts 120/240V
Welder Amps	300 DC amps
Jumpstart	400 DC amp @ 12V , 24V
Battery Charger:	300 DC amps @ 12V,24V,36V
Max Pressure	175 Psi
CFM Rating	40 cfm
Drive System :	2 Belt w. automatic Tensioner
Fuel Capacity	12 Gal
Weight	760 Lbs
Dimensions	31W x 41L x 25.5H inch

The **Cobra D** can be supplied with a Enclosure. Also available as a Hydraulic powered Unit.
